SL 7550

DESCRIPTION

The MOTOTRBO™ SL Series portable radio keeps you instantly connected and in control. So incredibly thin and light, the SL Series is the ultimate in discreet communications. Versatile and powerful, the SL Series portable radio is designed to meet the communication needs of customers in the hospitality, services, security and airport industries. Weighing as little as your average smartphone, its slim design and forward-thinking features such as Intelligent Audio, integrated Bluetooth and covert mode, enhance your level of professionalism and discretion so you can provide superior customer service and faster response times.

With the MOTOTRBO SL Series, we've remastered digital two-way communications and redefined everything you expect radio to be. Our expanded and complete portfolio of MOTOTRBO portable radios, mobile radios, repeaters, accessories, data applications, software and services can transform your enterprise. The SL Series empowers your people with clearer voice, real-time data and discreet communications so they can collaborate like never before. That's Digital Remastered.
